What aspects of this course should remain the same?	1.	The difficulty of the quizzes is nice, and the spread out of the 3 projects is nice.
	2.	Project is great
	3.	Fantastic Instructor, the videos for the lectures are helpful!
	4.	Number of assignments and how the subject of the assignment was taught
	5.	The structure of PowerPoint presentations, with periodic projects, quizzes, and exams covering the material.
	6.	Nothing to say.
	7.	The grading criteria should remain the same.
	8.	liked the course doen very well
What aspects of this course need improvement?	1.	Some improvements needs to be more practice questions. Also, some real world programming lessons would be nice instead of generic projects that probably will not have any use in the real world.
	2.	More practice on coding
	3.	Fantastic Instructor

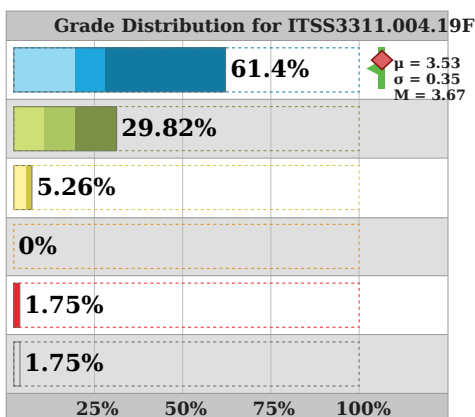

4. assignment guidelines need to be clearer.
5. The class was adequate, with no notable shortcomings.
6. Add some weekly online homework like multiple choice question.
7. The amount of information being presented versus the amount of time. 3 hours and learning 3 days worth of lecture is difficult to retain in one sitting with few break times.
8. no change
9. The midterm and finals could be a bit more easier.

Additional comments:

1. The fact that the programming software was free and that I was able to program freely was nice.
2. Fantastic Instructor
3. Great professor
4. The course was perfectly reasonable and helped in my review of the basics of Java programming.
5. Nothing to say
6. Thanks for being a great professor! Course was well structured and defined. Many opportunities were given to succeed and you were willing to answer all questions. You're an awesome professor, wish you the best in your career!
7. Professor was understanding! Did his very best for his students to succeed and listened to our concerns about the course.
8. its really well done
